Time is fleeting. You anticipate a moment and then, before you know it, it's gone, left to your memory and the recollections of others.

While Slab Yard Sound is not immune to the laws of time and space we can help with your memory by providing you with a mixed-down CD of your performance at the Art Boutiki.

Charges start at \$60 and we typically turn around an order in 3-5 days. Payment is due upon receipt of your disk. The tunes are yours to do with as you please, however if you post them on a website please give credit to both the recording company and performance space (see form).

We aim to please and will do what we can to provide you with a record of your Art Boutiki performance that will help you market your band, improve your future performances and impress your friends!
